Leuchtturm

“My collection doesn’t just belong in the album – it also belongs in the feed.”

Ardit collects banknotes from all over the world and shares his passion on social media.

Collecting is a part of you.

Stamps celebrate history, coins breathe new life into the life of historical figures, and trading cards tender to our hobbies, childhood memories or favorite sports. No matter what collectable lets our heart skip a beat, collecting is so much more than merely storing items. Preserving, displaying, safekeeping are the true passion that drives us all. Leuchtturm has been committed to designing accessories for collectibles for over a century, and we will continue sharing this passion with you.

More at leuchtturm.com

Dear Collector,

In times of artificial intelligence, analog retreats are especially valuable: reading a book, having a coffee, and devoting yourself to your stamp collection. A wonderful hobby that means passion not only for you, but for us as well. This year we are celebrating our 110th anniversary – and yet we are not stuck in the past. Because alongside the classics we all love, we also develop new products, often inspired by your ideas.

You may come across some “old acquaintances” in this catalogue. We have deliberately decided to show as many products from our range as possible again. And yet there is even more to discover: Feel free to visit our website at leuchtturm.com. There you will find additional accessories – for example for coins, banknotes and precious metals, but also for topics such as crown caps, concert tickets or trading cards. Because we firmly believe: Everyone is a collector!

Kind regards

Stockbooks and stock cards

The classic for every collection

**For many collectors, the passion began with a stockbook.
To this day it remains one of the most popular storage solutions for stamps – practical, well organized, and versatile.**

Whether at home, at collectors' fairs, or for secure storage in a safe-deposit box: stockbooks have proven themselves for generations. The sturdy pages and transparent glassine or plastic strips reliably protect your stamps while still allowing quick access to every collectible.

On the following pages you will find more than 50 different stockbooks in various sizes, colors, and configurations. You can also find detailed information about the materials used and their properties on our website at **leuchtturm.com**

LEFA

Leather fibre material is a book-cover material made of leather fibres and other renewable, natural raw materials (natural tanning agents, natural latex, natural fats, and dyes). The LEFA material created by felting the leather fibres possesses almost all important properties of naturally grown leather. No other material comes as close to naturally grown leather in quality and workmanship as LEFA. The LEFA cover material we use is characterized in particular by excellent physical properties (tensile strength, seam strength, durability, abrasion resistance, etc.).

Neatly sorted

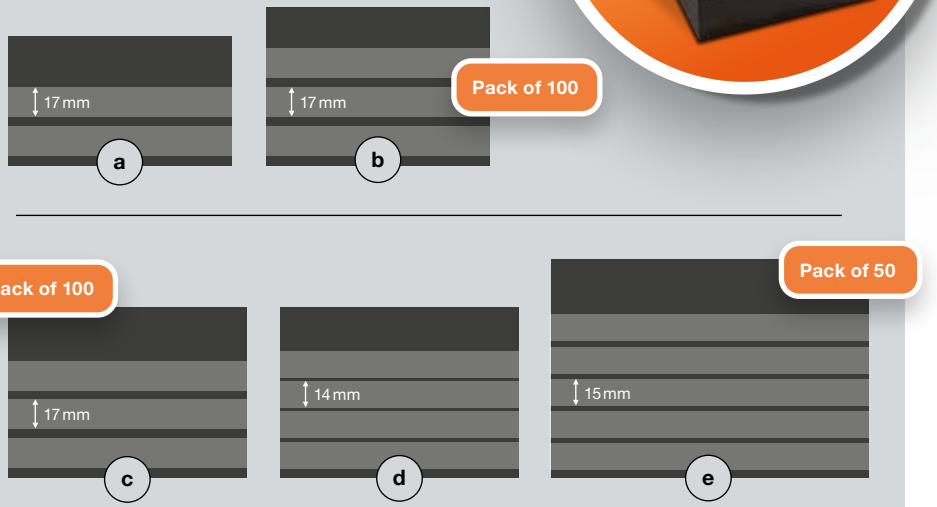

Clear, flexible, and time-tested: with stock cards you can structure your collection quickly and easily.

The sturdy cardboard cards provide an ideal base for presenting stamps sorted by themes, years, or countries. Thanks to the transparent rigid-PVC strips, the stamps stay securely in place and remain visible at all times. An additional protective sheet shields the collection from dust and external influences. New items can be inserted and added at any time without difficulty.

5 L180 Intercept® Box
Lined with Intercept® fabric, actively protects against oxidation (up to 15 years protection against tarnishing), suitable for postcards, letters, coin sets etc.

338 × 204 × 167 mm

Ref. 345417 **49.99 €**

* You can recognize the decline in material effectiveness by a dark gray to greenish discoloration of the film (not the coins!). In this case you should replace the Intercept® product with a new one.

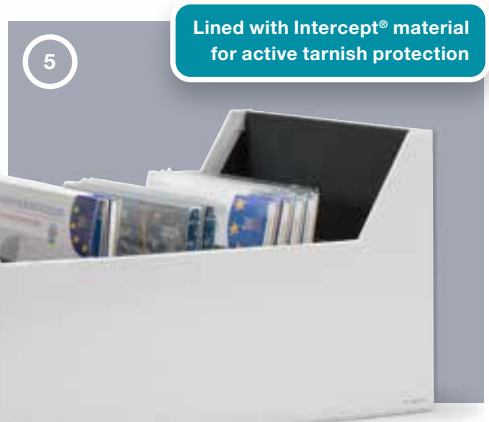

The protective effect of the Intercept® box is based on the Intercept® technology patented for over 30 years: copper particles contained in the material permanently bind corrosive gases and, in a very short time, create a neutralized atmosphere that protects documents and coins from aging and tarnishing (at least 15 years of guaranteed protection!*). The effectiveness has been proven, among others, according to established DIN, EN, ISO, and ASTM standards.

Leuchtturm pre-printed albums: precise structure for discerning philatelists

Systematic beauty for your collection

A good collection thrives on clarity, order and a framework that reflects the value of the items collected. Illustrated albums from Leuchtturm have epitomised this philosophy for decades. Developed with the philatelist in mind, they combine professional precision with high-quality workmanship – and are therefore the foundation of many sophisticated collections.

The basis: over 120 collection areas, carefully and expertly structured by our in-house editorial team. Each album follows a clear philatelic logic, takes issues, varieties and specialities into account and thus creates a reliable structure that provides orientation for beginners and supports experienced collectors.

Various binding systems are available for stylish storage – from classic screw post binders to modern ring binders. The high-quality bindings with durable gold embossing are not only functional, but also visually worthy of any collection. Preprinted albums from Leuchtturm are more than just storage: they are a system with a history – and a future.

Hawid stamp mounts:

How an idea transformed philately

The history of Hawid appears, at first glance, like one of many success stories, where a resourceful inventor and visionary entrepreneur created an economic miracle from the ruins of history post World War II and laid the foundations for the quality seal "Made in Germany". However, Hans Widmaier's creation in Berlin in 1945 went on to revolutionise one of the oldest hobbies in the world.

Widmaier was not only an engineer, he was also a passionate stamp collector. Indeed, his hobby was so important to him that Widmaier used his skills to find a solution to a personal collecting problem: Hans Widmaier wanted nothing less than the best possible protection for his stamp collection.

He pondered - there must be a way to protect these stamps. He had encountered polystyrene plastics whilst working for Siemens, as it was used to protect submarine cables. After all, if this material was able to withstand pressure in the depths of the ocean, it was sure to work just underneath the earth's surface.

An idea coming to life: Widmaier buried his stamps – wrapped up in polystyrene film – in the ground. And the result of this experiment was nothing less than sensational: the stamps survived their time in the earth fully unscathed. The idea of perfectly protecting stamps had been born. After some initial obstacles and expensive pioneering work, the Hawid stamp mounts® began their triumphant march around the world. They can be found in virtually every well-kept stamp collection and have been an integral item within the Leuchtturm range for many decades.

When the Hawid stamp mount celebrated its 75th anniversary, change was on the horizon: the company – Hawid Hans Widmaier GmbH – ceased activity. This news caused a great stir in the world of philately. Even though alternatives had been around for a long time, many collectors remained loyal for decades to the traditional brand with the eye in its logo. Consequently, it came as a relief when Ingrid Widmaier, the daughter of the founder and long-standing director of Hawid, agreed Leuchtturm Gruppe to acquiring the brand.

Since 1 September 2021, the philatelic legacy of Hans Widmaier has been continued by Leuchtturm in the form of the popular Hawid stamp mount. The stamp mounts are made of polystyrene film (PS), which is PH-neutral and does not contain plasticisers. This extensive range comprises strips, block mounts and pre-cut mounts. The stamp mounts are available with either a black or a clear backing. Besides the stamp mounts, you will also find a stamp mount cutter for cutting mounts to the size required, a special adhesive to affix the stamp mounts onto the album pages as well as a glue pen to adhere two sheets.

Leuchtturm and Hawid have worked together for decades. Leuchtturm started to use the Hawid stamp mounts for its illustrated albums back in the sixties and continued to do so until it set up its own production of stamp mounts. As a result of its own global distribution relationships, Leuchtturm ensured that Hawid was well known in all relevant philatelic markets. Consequently, it was an honour for the market leader based in Geesthacht to maintain Hawid for stamp collectors throughout the world. Kurt Stürken, Senior Partner, was especially pleased when he signed the contract with Ingrid Widmaier back in 2021: "Birds of a feather, flock together"

The Hawid range of stamp mounts

1. Hawid strips
217 mm in length, various heights. The strip is 4 mm higher than the size of the stamp. The width can be cut to size.

2. Hawid block mounts
In a variety of sizes for postal stationery, blocks of stamps, miniature sheets etc.

3 mounting variants

1. Hawid mount
Mount for inserting stamps from the side at the top. Can also be cut to size for unusual stamp shapes

2. Double seam (d) = closed at top and bottom
Two parallel clamping seams and a gummed base film. For inserting stamps from the side. This prevents larger formats from folding forward

3. Schaufix (s) = closed at top and bottom, open at the back
Two parallel clamping seams and a gummed base film slit in the middle make it easier to insert larger formats and prevent the mount from folding open

Hawid stamp mounts – all the benefits at a glance

- Years of experience in the production of stamp mounts
- "Made in Germany" quality
- Extensive range of stamp mounts
- Holds stamps securely in place, thanks to the strong seam
- Maximum protection against sticking and discolouration, and from dust and moisture. Material: 100 % polystyrene (free from plasticisers, acid, stabilisers)
- Anti-glare coating prevents irritating light reflections
- Specially gummed on the back of the film (simply moisten and stick)

Year album pages Federal Republic and Berlin with stamp mounts for creating your own style. The illustrated album pages with stamp mounts for the Federal Republic and Berlin can be bought for specific years. This has the advantage that you can start with any year and gradually expand your collection. These pages have been structured in line with our proven criteria: definitive series and commemorative stamps are recorded on separate pages, long-running series are abridged once the series is complete. Alongside issues in miniature sheet format, individual stamps are also reproduced as a preprint. Brief, informative text points out differences in colour, printing and perforation in parallel editions.

Bi-Collect United on one sheet:
Mint and cancelled stamps! The idea for a double feature has found many fans among long-standing collectors. It is also of great help for beginners. You can see, at a glance, which stamps are still missing from your collection. Kabe bi-collect comes "ohne Falz" pages. The stamp images are printed twice on the sturdy card stock, once for the mint stamp and once for the cancelled version. Kabe ohnefalz (without mounts) is a special development of a transparent stamp mount that protects the stamp from both environmental and physical influences. The original-sized illustrations are arranged in logical groups. The album pages featuring a double linen hinge ensure a long service life. Wood-free and acid-free 175 g/m². With stamp mounts.
