Leuchtturm

“You’re dealing with history, with places, with details – that fascinates me.”

Dirk collects pressed pennies – mainly from Germany.

Collecting is
a part of you.

Stamps celebrate history, coins breathe new life into the life of historical figures, and trading cards tender to our hobbies, childhood memories or favorite sports. No matter what collectable lets our heart skip a beat, collecting is so much more than merely storing items. Preserving, displaying, safekeeping are the true passion that drives us all. Leuchtturm has been committed to designing accessories for collectibles for over a century, and we will continue sharing this passion with you.

More at [leuchtturm.com](https://www.leuchtturm.com)

Collecting is part of us.

We know that collecting is deeply interwoven into the very fabric of our human being.

Even though the original spark that initiated this passion may differ, the devotion and dedication we share towards carefully selected keepsakes not only unites us, but grants a pure moment of bliss once we hold that long awaited treasure in our hands.

An experience we all know to well.

For more than 100 years now, we have been accompanying you on this journey of collecting, no matter where in the world or what age, always by your side as trusted companion with just the perfect accessories to safeguard your treasures in the present and for future generations to come.

Collecting in itself is so much more than merely keeping or storing things.
It is the history and stories behind them that gives them value.
An adventure through the ages that we cherish and share with others.

We know how important collecting is to you,
how seductive the hunt can be.
We share your passion and provide a stage and
frame to shape and honour your very own collection.

Dear Collector,

for over 100 years, the Leuchtturm brand has stood for high-quality accessories for the safe storage and presentation of collectors' treasures – in the field of philately as well as numismatics. Our product range includes collection albums, sleeves, cassettes, cases, cases, coin capsules, catalogues and optical accessories such as magnifying glasses, microscopes, lamps and cleaning products. With our Kabe, Moc and Hawid brands, we also offer a wide range of philatelic products.

Collecting is a part of you – regardless of which objects take centre stage. This is precisely why we are continuously developing our range: with accessories for areas such as crown corks, beer mats, champagne lids, tickets, autograph cards, pins and minerals.

A current example of change in the collecting world is the introduction of the euro in Bulgaria, which is due in 2026. Bulgaria is already integrated into many of our products today – minor adjustments will follow in order to ensure optimum preparation for the new euro nation.

Innovation is also evident in our packaging solutions: the popular Grips coin capsules are now available in a space-saving flat pack. We supply our Ultra Perfect Fit capsules in practical, reusable cardboard tubes – a clever solution for storage and organisation.

With this combination of tradition and innovation, Leuchtturm is now represented in over 100 countries – as a strong partner in the specialised trade and as a reliable companion for all those who collect with passion.

We hope you enjoy browsing through the current accessories catalogue!

Scope of delivery: Collectibles, coin capsules and coin holders are only used for decorative purposes in the photos – they are not included in the delivery. The dimensions are given in the following order, if not otherwise indicated: length × height × width (depth).

2 euro commemorative coins:
A field of collection that connects the whole of Europe

A continent in small change

Hardly any coin series reflects Europe's cultural and historical diversity so as impressively, as the 2 euro commemorative coins. The spectrum of topics ranges from architectural masterpieces and important personalities to anniversaries and social events, and invites you to rediscover Europe. Each country uses the same currency to tell its own story - in an artistically designed miniature form. The technical precision with which even the finest

details are realised on the small surface makes the coins coveted collector's items across national borders and a collector's item for every budget. For many collectors, it is not only the value that counts, but also the joy of discovering new and unknown sides of Europe.

Anticipated availability as from December 2025.

The numismatic reference for coin collectors for more than 20 years

Euro coins:
In search of everyday rarities

Traveling from hand to hand, until it finds its place in the album

They accompany us in our everyday lives, disappearing into wallets or tills vending machines, yet they are worth a second look: Euro coins tell us a lot about their countries of origin, their symbolism and their self-perception.

The appeal of the complete collection is particularly attractive: all euro countries, all denominations, all years of issue – a collection that is growing and constantly evolving. For beginners and advanced collectors alike, circulation coins offer a fascinating mixture of systematic collecting with the potential for surprises – through a find from a small country or a coin with a rare year or mysterious mintmark.

Simply press in
the coins

Great idea: Set of Eurozone flag stickers

Silver coins:
Return opportunities with substance

An underrated precious metal moves into the fast lane

While gold has reached new highs in recent years, silver has lagged behind in comparison – but this is precisely where a great opportunity lies.

Experts see the current gold-silver ratio as a clear sign of catch-up potential: silver could become a high-yield investment in the coming years. Internationally established bullion programmes such as Maple Leaf, Kookaburra and Britannia are particularly sought after – they combine safety, aesthetics and high market liquidity. What's more: Issues with popular motifs are also increasingly becoming collector's items. Those who want to invest in assets with a future will find silver coins an interesting alternative to traditional forms of investment.

£ 13.99

*You can recognize the decrease in material effectiveness by a dark grey to greenish discolouration of the foil (not the coins). In this case, you should replace the Intercept® product with a new one.

Matching coin capsules can be found on p. 40+41

Gold coins:
Asset insurance
and a prestigious field of collection

A golden era for investors in real assets

The development of the gold price in 2024 was as remarkable as it was complex: The precious metal repeatedly reached new record highs.

5

Mix & match
and stackable

New

6

b

The main triggers were geopolitical tensions, particularly the escalation in the Middle East and the ongoing uncertainty in relations between China and the US. This was compounded by a monetary policy U-turn: after years of rising key interest rates, central banks around the world responded to a cooling economy, which further undermined confidence in paper currencies and brought gold into focus as an investment with real value. In this environment, gold coins once again took centre stage: not only are they considered crisis-proof, but they can also be physically owned and easily traded. Whether Krugerrand, Maple Leaf or German gold coins – those who invested in 2024 were able to enjoy breathtaking growth. And with a view to the coming years, many analysts see further potential – especially if global uncertainties continue to intensify.

5 MB coin box

In a world full of trends and digital hypes, historical coins represent a constant counterpoint: they are tangible evidence of the past – and at the same time stable assets with potential. Whether gold coins from the German Empire, thalers from the 19th century or medieval coinage: these contemporary testimonies combine rarity, historical significance and high material substance.

Especially in times of economic uncertainty, historical coins are considered a reliable investment – often with remarkable potential for long-term price increases. They also play a role in generational change: more and more heirs and young collectors are discovering historical pieces as an introduction to the world of numismatics. Anyone who wants to own history and at the same time secure values is making a sound decision with historical coins.

Banknotes:
Cultural history in pocket format

Means of payment with added value

Banknotes are more than just a means of payment - they document political upheavals, economic crises and artistic trends. From imperial Reich banknotes and emergency money from the Weimar Republic to designs from the GDR or early euro test notes: each specimen tells a story.

The fine printing techniques, artistic portraits and historical scenes make paper money a collecting field in its own right - with a steadily growing following. Notes in top condition are particularly sought-after, as they are considered rare contemporary testimonies in a medium that was originally intended for circulation. In an era of increasing digitalisation, banknotes preserve not only value, but also memories.

3 Vario sheets

Pack of 5

Using clear sheets has the advantage to view banknotes from both sides, while black sheets (clear sheet with interleaf) doubles the storing capacity, in addition it shows a better contrast to the banknote.

For more items from the Vario range, please take a look at our **Accessories Catalogue for Philatelists** as well as online at leuchtturm.com
Ring binders and sheets for banknotes are also available in the Optima range.

4

In 2015 an idea comes to life with the introduction of the first issued Euro souvenir banknote.

These banknotes are becoming more and more common in vending machines, at cash registers, ticket offices or simply sold in souvenir shops of many museums, amusement parks or tourist attractions. They are now sold in many countries and are coveted collectibles. The Euro souvenir banknotes are printed by an official printer of Euro banknotes. Consequently, they not only take advantage of using security paper, but adapt security features such as: watermark, a metal stripe in the paper, tactile relief, hologram, microprinting, see-through register, fluorescent/invisible ink, serial letters and a control number. Certain extra characteristics (especially the use of a purple colour) mean they cannot be confused with genuine currency.

4 Album for 420

Euro souvenir banknotes

Coins from all over the world:
diversity you can touch

The whole world in a coin album

World coins open up a fascinating view beyond the numismatic horizon: whether exotic currencies, rare commemorative coins or current circulation coins – each one tells of political systems, national self-image and creative handwriting.

For collectors, they offer an almost inexhaustible variety of themes, vintages and motifs. Particularly appealing: the combination of aesthetic appeal, geographical (re)discovery and historical classification makes this field of collecting attractive to young numismatists and newcomers. Whether as an introduction to the world of coins or to broaden the horizons of experienced collectors – coins from all over the world are a mirror of human history in miniature format.

Coin capsules:
protection and presentation at the highest level

Systematic protection

Whether bullion coin, antique coinage or modern collector's edition - long-term value retention begins with correct storage. Professional collectors have therefore long favoured custom-fit protective solutions that not only protect against scratches, dust and moisture, but also leave the view of the object unclouded.

We offer the right solution for every format: from the classic round capsule to the established quadrum system and innovative variants such as magic capsules, which also securely hold irregularly shaped coins. Anyone who wants to build up their collection in a value-orientated way while achieving a visually appealing presentation format will find the ideal combination of functionality and aesthetics here.

100× Quadrum coin capsules

Active protection
against tarnishing

Pack of 10

For 160× coin holders or
80× Quadrum coin capsules

Coin holder:
practical, compact, tried and tested

The perfect supporting programme for your collection

If you want to keep lots of coins safely and in an organised manner, you can use coin holders. The sturdy cardboard film with a viewing window not only offers protection against environmental influences, but also enables systematic cataloguing - for example through handwritten notes on the edge.

Whether for beginners who want to organise their first collectibles or for experienced collectors with extensive collections, frames can be stored in a space-saving manner, are easy to transport, and fit perfectly into collection boxes or albums. This turns loose individual items into an organised collection with a system.

1 Matrix assortment of coin holders incl. free case

1,000 white coin holders, 100 each,
Ø: 17.5 mm, 20 mm, 22.5 mm, 25 mm,

Travel Money: collect travel souvenirs

Capture the perfect holiday memories forever

Whether it's a beach holiday, city break or long-distance trip – many souvenirs fade, but coins and banknotes remain.

With the right storage solutions, these little memories of great journeys can be permanently secured – especially for collectors of pressed pennies, but also for classic travel currencies – with the Travel Money ring binder, which offers space for coins and banknotes from all over the world. This turns holiday money into a personal trip around the world in album format – clear, secure and accessible at all times.

1 a b c

New

1 Travel Money ring binder
